

The Bethany Foundation uses the Romanian based, 'not-for-profit', Galantom crowd-funding web site (developed for charities by the Romania-American Foundation)

Bethany has created pages with funding targets & specific deadlines.

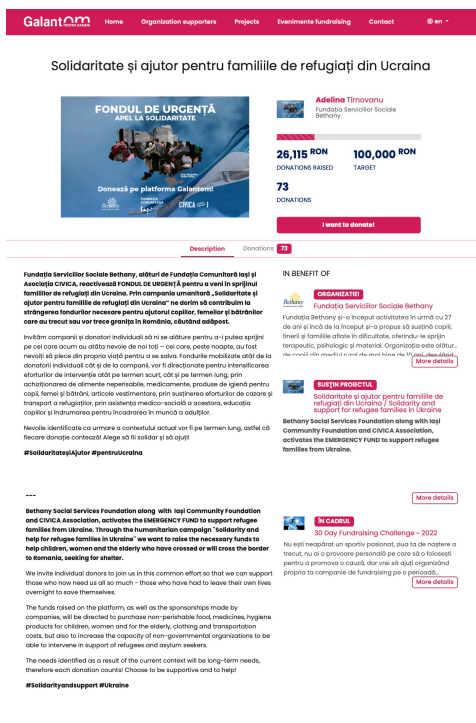

This is normal practice with crowd-funding web sites.

Donors are requested to include a small payment to cover the costs of the Galantom funding process.

The site is in Romanian and English with key terms (the 'I want to Donate' button) in English.

It opens a page like this (inactive) example.

Clicking on 'I want to donate' opens the donation page.
