

## LA CASTELL BALL

*'La Castel Ball is the most famous philanthropic event in the region of Moldova, an event that takes place annually in Iasi for the benefit of vulnerable children.'*

The event is crucial for the continuing work of Bethany in a region where children and family services are insufficiently supported by national government funding.

Commercial companies from across the region are invited & creative artists, sports people and other significant individuals provide items for an auction. The auction also provides an opportunity for the work of Bethany to be presented & evening continues to conclusion with a concert.

All staff assist in the production & presentations made during an event that begins at 7.00pm & continues into the 'early hours'.

All contributions (venue, food & drink, music, professional, technical assistance & support) are provided without charge.
